Promising Outlook for This Season's Racing -Is Gilmore's Pagilistic Career Ended? -Still Another Benefit for Pete McCoy-Dempsey Anxious to Fight Reagan in California-Charley Mitchell Has a Sore

Down with the tug-of-war! This is the slogan

of the most intelligent athletic trainers. They say that in addition to straining every part of he body the tug-of-war actually deforms men who engage in it often. They declare that ath-letic clubs should prohibit members from participating in them, and that any infringement of the rules should be summarily dealt with.

Prof. John Laffin says: "The tug-of-war does more to injure men than any other form of socalled exercise except heavy lifting. Both the tug-of-war and the lifting of heavy weights should be prohibited in all gymnasiums. I have known a large number of men to ruin themselves for life by pulling on tug-of-war teams."
Walter Campbell says: "It is high time the athletic clubs took up this question of the tugof-war and put a stop to its practice. It does no good whatever, but on the contrary, great injury. I have yet to learn of a man's physique being benefited by pulling on a tug-of-war team, while I know a great many who have pernanently injured themselves."

This season's racing promises to be the most successful ever known. Everywhere great prep-

successful ever known. Everywhere great preparations are being made to make it so. It is an undoubted fact that the race track is becoming a rival of the baseball diamond in popular favor.

Gilmore's defeat by Needham will probably settle Harry's career as a tighter. It is doubtful if his pugilistic claims will ever again inspire confidence or be recognized in sporting circles. Poor Harry!

Why is the neighborhood of New Orleans selected as a battle-ground for the coming great fistic duel between Kilrain and Sullivan? The climate down there certainly is not conducive to hard training at that season. The great 'pugs' will train near the seens of battle. They will both have ample time to get a fever before the date of the fight. The climate of California is highly invigorating at all times of the year, and the California Athletic Club would doubtless add a purse of \$5,000 or \$6,000 as an inducement to the fighters to settle their little mill out their way. There would also be less likelihood of police interference in California.

Pete McCoy is fust being overwhelmed by his friends. In addition to his coming benefit it Hoboken, he will have a benefit at Bridgeport. Conn., on April 10.

And by the way, if Jimmy Carroli cannot make a match with Reagan. he probably need not go begging for a fight. Either McCoy or La Blanche, the Marine, would like a "go" with him, Queensberry rules.

Carroll will have difficulty in getting anybody to meet him according to prize-ring rules, for Jimmy can throw nearly anybody of his weight. He is a great one at collar-and-elbow.

There are several pugilists around the country who are waiting auxiously for the tangle over the middle-weight championship to be really definitely settled. When it is the champion may expect a batch of challenges.

Dempsey, despite all other claims, is, of course, the champion. But Johnny Reagan says it isn't the championship he is after so much as it is a chance to have another go at Jack. . . .

Dempsey told the writer last night that he would jump at a chance to fight Reagan under the auspices of the California Athletic Club for a purse of \$3,000 m addition to the \$1,000 stake. Said Jack: "There is nothing I would like better. My opinion of Johnny Reagan is that he is the best man of his weight there is. Besides being a clever fighter, he is the gamest and pluckiest man I ever fought."

James Birmingham, who is to fight "Monte" Lewis within two weeks, won the feather-weight contest at the Varuna Boat Club's preliminary ath etic meeting last Winter. But when the final bouts occurred he overweighed one pound and was barred.

After April 6 the New York Athletic Club will resume outdoor training at Travers Island, near New Rochelle.

In a cable despatch received by Richard K. Fox, George Atkinson says that the fight between Mitchell and Smith will take place in a few days, and will probably be private. Owing to Mitchell's hand being sore Smith is a favorite in the betting. There is likely to be a hitch over the referee, Mitchell being in favor of Angle, who refereed the Sullivan-Mitchell fight.

Billy Read, Reagan's backer, writes to th Billy Read, Reagan's backer, writes to the Potice Gazette to say that, in reply to Dempuey's challenge to Reagan or Carroll, Reagan will not accept any challenges until be meets young Mitchell. Dempsey having failed to cover the \$250 forfeit left with the Police Gazette the money was withdrawn at the expiration of the ailotted time and the California Club's offer accepted. Dompsey, he says, will now have to make a match with Carroll, who has posted \$250 as forfeit.

Segotiations Between Duff and Dixey About "Panst"-James A. Herne to Have a Benefit-Lillian Lewis to Star Under Wilken McClave - Amelia Somerville' Experience in Renting a Fint.

James C. Duff's journey to Baltimore is taken for the purpose of consulting with Henry E. Dixey with regard to the production of the "Faust" burlesque at the Standard Theatre. Although Mr. Duff has secured the English rights and arranged with the English Gayety Company to appear in this city, he is willing to give Dixey and "Faust" a long run, and the English gavety organization, which will be entirely different to that at present headed by Nellie Farren and Fred Leslie, will be sent on tour through the country, coming to the Standard Theatre after the run of Dixey. Everything depends upon the conference between Duff and Dixey. The slight tangle in which the affair is involved at present will be straightened out by the business-like Duff and the genial though equally business-like Dixey.

Miss Amelia Somerville, who has a dainty little flat in Twenty-fourth street recently rented it furnished, and has had a 'terrible time" getting back into it. She protested at the condition in which she found things, and the occupant protested at the protest, "I paid you eso for the use of your furniture," declared the occupant, "and I've taken my #80 in wear and teer" "You have," wrote back the undaunted Amelia, "but you couldn't have my flat again for #90 per minute.

James A. Herne, whose "Drifting Apart" Company closed its season a great deal earlier than was desirable for the pocketbooks of the members of his company, is to have a benefit on Tuesday and Wednesday next at Birmingham, Conn. All the members of his company, it is said, are to volunteer their services. There is plenty of beautiful, unalloyed modesty in the profession, isn't there?

Little Mr. Wilkes McClave is to take Miss Lillian Lewis out in Lawrence Marden's version of 'As in a Looking-Glass' and 'Article 47." She is to tour through the South, and starts April 22. Mr. McClave says she is to have a first-class company, and it is eminently proper that he should say it.

"Jocelyn" will be the play. There will be entirely new scenery and accessories, it is said. Why deem't some-body announce old scenery and no accesso-ries? It would be such a delightful relief.

Mr. Sidney Bowkett is to be a member of "The Tempest" company in Chicago during the Summar. This production will be a "Summer snap"—in the language of the profession, and Summer snaps are not to be sneezed at. Mr. Bowkett is at present a member of Mrs. Potter's company, and will probably join that organization next season.

A. H. King & Co.'s Opening and Recepti Proves a Great Attraction.

King & Co. w. Nos. 627 and 621 Broadway, last evening. The firm's increasing business necessitated the extension of the store. and the salesroom now runs through from Broadway to Mercer street. It goes without saying that a great crowd was present in response to the firm's invitation, and many of the fair sex showed their appreciation of the firm's enterprise by their presence. They were amply rewarded by all they saw, and each lady was presented with a pretty souvenir of the occasion, in the shape of a pin, purse of the occasion, in the shace of a bin, purse, sleeve-buttons, vinaigrette or some other trifle dear to the feminine heart. Nothing was for sale during the three hours exhibition; but the male visitors saw enough to convince them that they could attire themselves well and economically from the counters of the firm. Overcoats were shown in six tones, silk-faced, at prices from \$10 and \$112. Also the business, walking and sacks suits, in worsteds, cheviots and cassimere, in the latest and most fashionable styles, at \$5.75 to \$18 each. "The dagger and the note attached to it addressine the Inspector. "Have you had were taken away by you," said the Coroner, the inscription on the dagger translated?"

The witness took out from his pocket-book slip of paper and handed it to the Corone . "The sentence is in Hindustani, I see:

translation is attached," replied the In-

ector, handing two pieces of paper to the

writing before him. "And the letter, what has been made of that?" he added, after a pause. "The expert who has been doing the translations mys that the handwriting on the

slip of paper and on the envelope is undoubtedly that of the same person?' " To whom is the envelope addressed ?" "That is the question, sir. I have a rough translation of it here." He opened his pocketbook and turned over several leaves

"'To my destroyer (or to the one who has caused me to be destroyed)-the Brother of the Light. From the Slave of the Master of Darkness.' ' And what does the letter contain ?"

until he came to the one he wanted. "It runs something like the following:

" That, sir, is what hasn't yet been found out. The translator is at work at it now. It completely puzzles him, and he can't make much sense out of it at present. It's all about masters and slaves, black brothers and white brothers, and other unintelligible things, which makes the translator believe that the man who wrote it must have been raving mad at the time."
